## HydraTech Engineered Products PolySpray SS100

September 2009 Vol. 64 No. 9

PolySpray SS100 is a rapid setting elastic polyurea monolithic coating, providing moderate structural support to the host structure and excellent resistance to incidental chemical exposure. PolySpray SS100 is ideally suited for the rehabilitation of sanitary waste pipe, manholes, storm drain culverts and secondary containment applications. PolySpray SS100 is further recommended for structures subject to moderate lateral or transverse movement.

PolySpray SS100 can be used in the rehabilitation of pipelines ranging in diameters from 6 inches to greater than 120 inches and can be applied in

thicknesses from 0.25 inch to greater than 2 inches in a single pass. 513-827-9169, [www.hydratechllc.com](http://www.hydratechllc.com)
